

Editorial Introduction

This issue of the Brazilian Journal of Operations & Production Management (BJO&PM) relies on a particular context: it presents an special selection of papers from the supply chain management (SCM) track of the 21st International Conference on Production Research (ICPR).

All the papers published in this Special Issue are extended versions of the papers that were presented at the SCM track of ICPR, were again submitted to a new blind review process. As the Editor-in-chief of the BJO&PM, I am in debt and thanks to Dr. Dieter Spath, Dra. Katja Klingebiel, Dr. Sergio Eduardo Gouvea da Costa and Dr. Luiz Felipe Scavarda which has performed a very worthily work, selecting the papers and being the editors of this special issue.

Prof. Helder Gomes Costa
Editor-in-Chief

Brazilian Journal of Operations & Production Management, ABEPRO, Brazil
